

State Comprehensive Emergency Management Plan (SCEMP)

Update to Nevada's SCEMP Revision Project

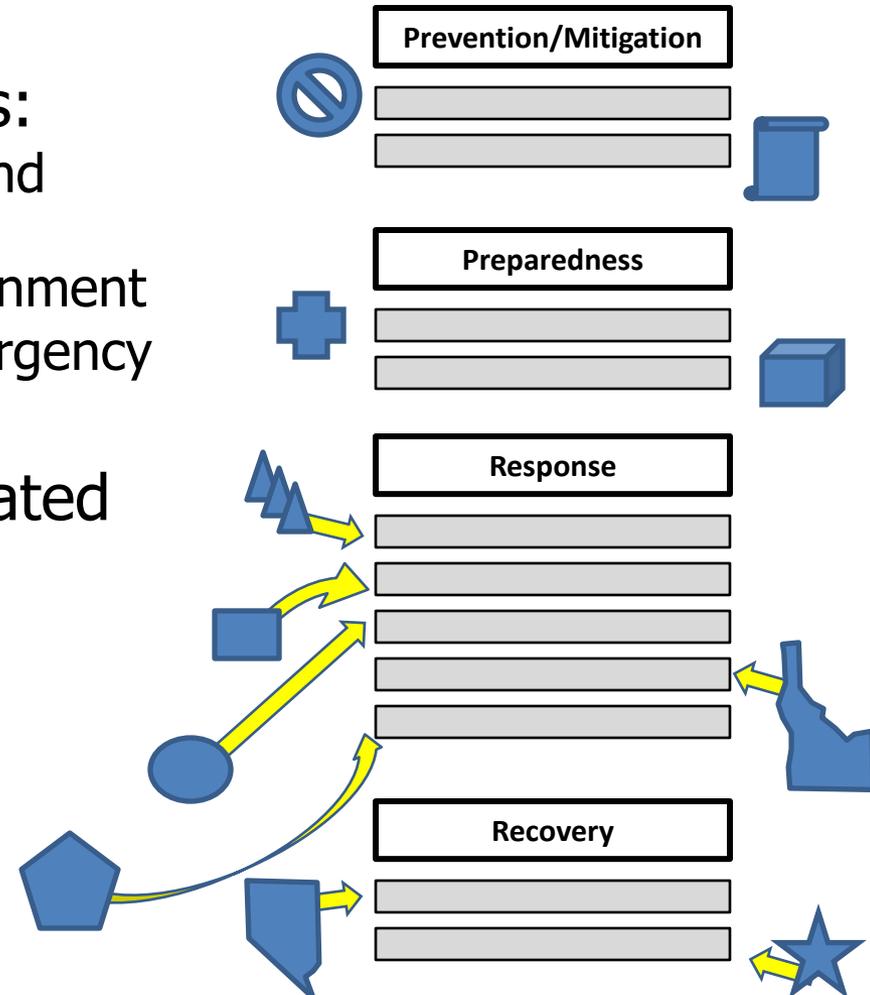

Why Have a Comprehensive Emergency Plan?

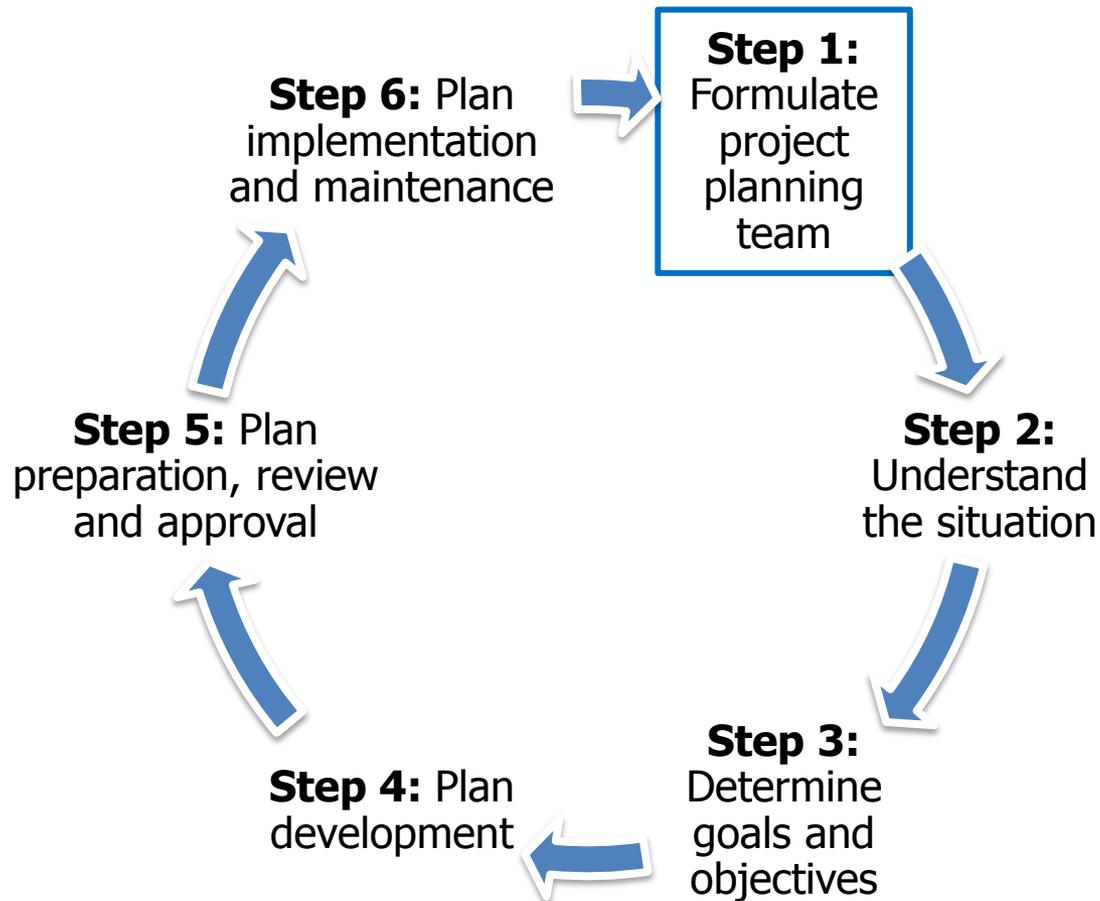

- An emergency plan specifies procedures for handling emergencies.
- Its objectives should be to:
 - Reduce the possible consequences of the emergency
 - Prevent or reduce the loss of life and injuries
 - Reduce damage to infrastructure
 - Protect the environment
 - Accelerate the return to normal daily activities

Comprehensive Emergency Management Planning Concept

- Comprehensive emergency management planning involves:
 - A cycle of phased, coordinated and mutually supporting activities
 - Conducted at each level of government
 - Before, during, and after an emergency
 - Addresses the activities associated with...
 - Prevention / Mitigation
 - Preparedness
 - Response
 - Recovery
- ...for all hazards

Six Step Planning Process

Six Step Planning Process

- **Step 1:** Formulate project planning team
 - (NDEM staff, State Agencies, Private Sector)
- **Step 2:** Understand the situation
 - Background, research and lots of reading
 - Review threats and hazards
 - Assess risk

Six Step Planning Process

- **Step 3:** Determine goals and objectives
 - Determine operational priorities
 - Set goals and objectives
- **Step 4:** Plan development
 - Develop and analyze course of action
 - Identify resources
 - Identify information and intelligence needs

Six Step Planning Process

- **Step 5:** Plan preparation, review and approval
 - Write plan
 - Section One – Basic Plan
 - Section Two – Emergency Support Functions
 - Section Three – Annexes and appendices
 - Synchronize among SEOC, ESF and others
 - Coordinate among other plans
 - Technical Edit
 - Legal Review
 - Approval
 - Publish and disseminate

Six Step Planning Process

- **Step 6:** Plan implementation and maintenance
 - Exercise the plan
 - Review, revise and maintain the plan

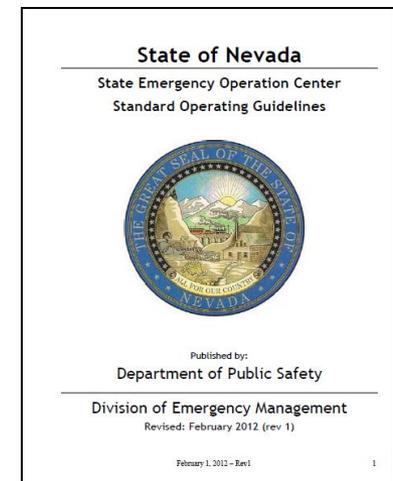

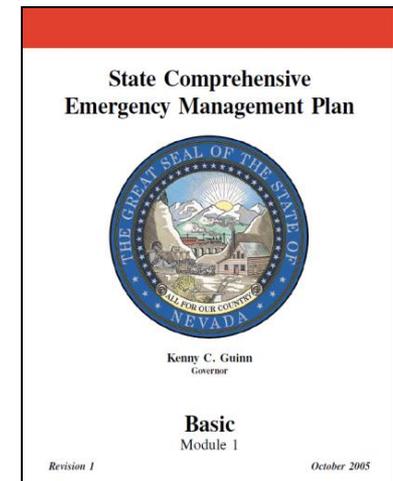

Project Goal

- *Produce an updated SCEMP that is NIMS, EMAP and CPG 101 compliant published by October 1, 2013*

SCEMP Guiding Principles

- Describe **WHAT** Nevada does in emergencies rather than describe **HOW** Nevada gets the job done
- Serve as the umbrella or framework standard to align and tie-in other state plans
- Standardize the language format (multiple authors)

SCEMP Guiding Principles

- Leaner, Easier to Read
- More Strategic
- Eliminate Procedural Components
- Encompass the Requirements of:
 - NIMS
 - EMAP
 - CPG 101 v2

Project Approach

- In six months:
 - Conduct six SCEMP Planning Team meetings
 - Draft the “backbone” or outline of revised SCEMP
 - Conduct 2-3 “one-on-one” sessions with ESFs
 - Produce coordinating draft of Basic Plan
 - Receive & review all draft ESF Annexes
 - Conduct reviews (program, legal, executive)

SCEMP Comparison

Current 2005 SCEMP

Seven Stand Alone Modules:

Module 1: Basic

Module 2: Policy and Administration

Module 3: Emergency Operations

Module 4: Logistics

Module 5: Financial

Module 6: Plans

Module 7: Damage Assessment
Recovery Operations

Proposed 2013 SCEMP

Single Plan with Annexes:

Basic Plan

Emergency Support Annexes

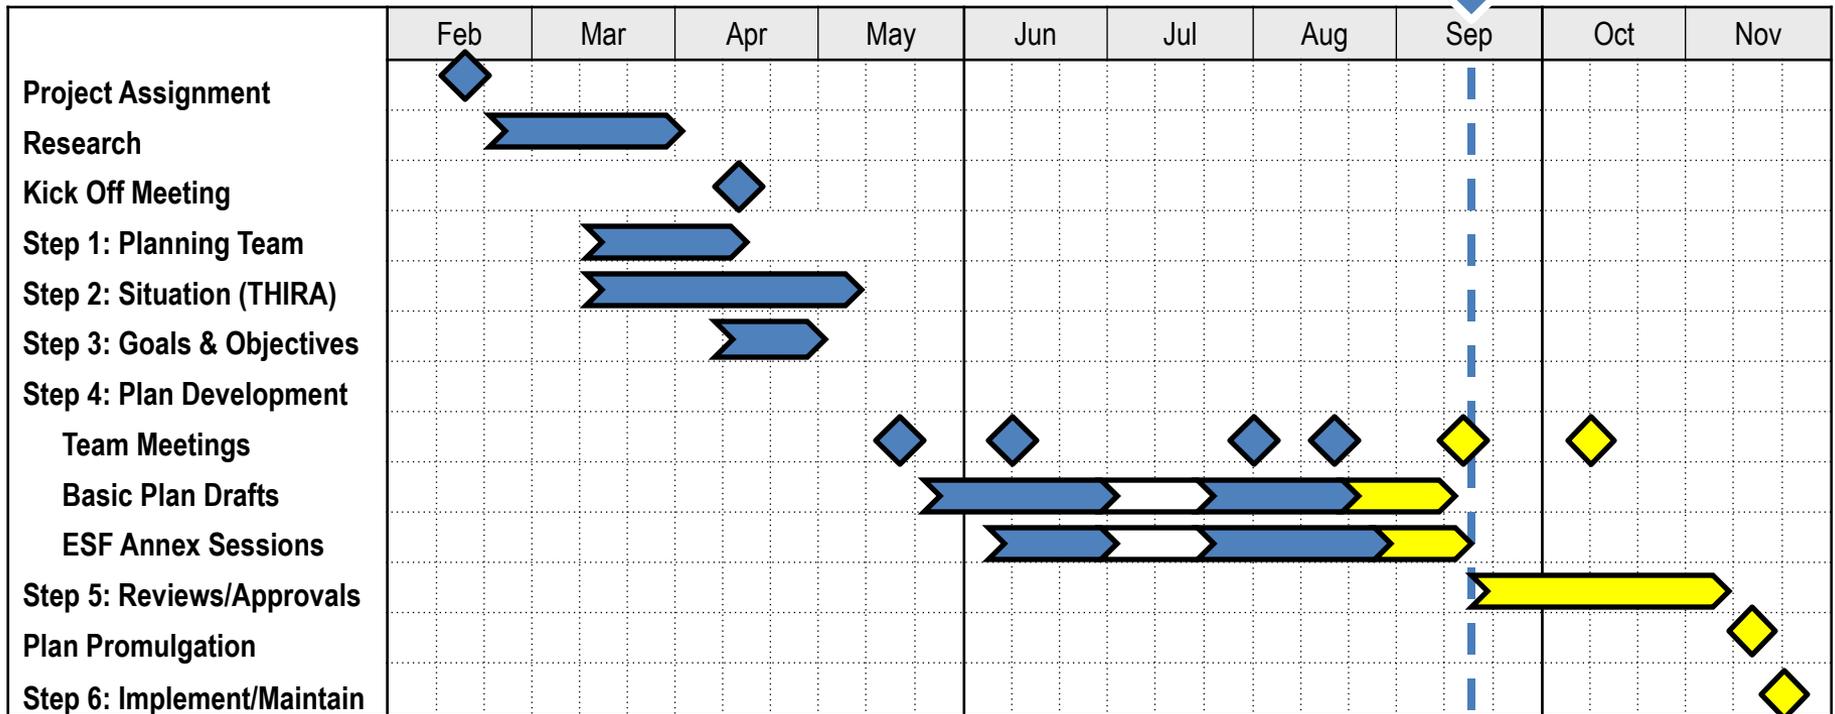

Support Annexes

Hazard-, Threat-, Incident-Specific
Annexes

NEVADA Emergency Management Program Total EMAP Project Timeline

2013

We are Here

Concepts Under Consideration

- Access to a “Short Team” during initial hours of developing situation
- Increased ESFs in SEOC
- Integration of select ESFs into SEOC Sections
- ESF Appointment Letters
- Expansion of Recovery ESF
- Dual Status Command
